

## NOTICE OF MOTION

**Motion:** 0523

**Date of Full Council Meeting:** 02 October 2023

**Proposer:** Cllr Michael Lilley

### **Proposal By Way of Notice of Motion:**

1. That Ryde Town Council write to IW Council requesting a reassessment on the past proposed developments in South/East Ryde.
2. Ryde Town Council reinstates its past position and objections to proposed developments in the South/East Ryde that there should be no development or developments starting until a satisfactory road infrastructure plan is financed and implemented. Sufficient to cope with the large scale developments as highlighted by Highways and Island Roads in their objections to developments in South-East Ryde and not accepted by IWLPA. The draft Island Plan should reinforce RTC continuing demands that there has to be a road infrastructure in place in Ryde that can cope with existing traffic and future traffic created by these developments.
3. Ryde Town Council insists and gains support from IW Council/LPA that there is a Ryde Supplementary Planning Document attached to any future Island Plan that is an up-to-date Position Statement and Place plan that has the same strength as a Neighbourhood plan which clearly states Ryde housing needs and that residents/community have engagement/involvement in any future developments. This is enacted prior to any draft Island Plan being accepted/agreed by IW Council.
